Masai School, Bengaluru, Karnataka

June 2021 - Mar 2022

### Bachelor of Science

Jiwaji University, Gwalior, MP

Mar 2018 - Nov 2021

## Professional Experience(Total -3yr)

---

### **Progshee Technologies**

Position : Full Stack Web Developer  
Apr 2024 – Dec 2024  
Remote

### **Codezilla Technologies Pvt Limited**

Position : Full Stack Web Developer  
Sep 2023 – Mar 2024  
Indore(MP) , India

### **Softinator Group of Industries**

Position : Full Stack Web Developer  
Apr 2022 – Aug 2023  
Indore(MP) , India

## Projects

---

### 1. **Naseni**

NASSENI, the National Agency for Science and Engineering Infrastructure, is a Nigerian government agency focused on promoting the development and utilization of science, technology, and engineering to enhance the nation's industrial capabilities. It plays a key role in advancing Nigeria's technological base and supporting innovation in various sectors. NASSENI aims to reduce the country's dependence on imported technology by fostering local research, development, and manufacturing capabilities unlimited bookings, locations, team members and notifications

**Role :** Frontend Developer

**Duration :** Dec2023 – Feb 2024

#### **Areas of responsibility :**

- Led the front-end development of a dynamic project for NASSENI, overseeing the design and implementation of key features
- Utilized React and Redux to create a robust front-end solution, ensuring a responsive and efficient user interface.
- Addressed complex challenges, such as integrating various user roles (EVC, EVC assistant, director of department, director of assistant, staff) into the application.
- Developed innovative solutions to digitize NASSENI's yearly budgeting and staff management processes, reducing manual workload and promoting a paperless environment.
- Took ownership of the project from inception to completion, handling about 80% of the UI and logic independently, showcasing a high level of initiative and competence.

#### **Features :**

- Took ownership of the project from inception to completion, handling about 80% of the UI and logic independently, showcasing a high level of initiative and competence.
- Took ownership of the project from inception to completion, handling about 80% of the UI and logic independently, showcasing a high level of initiative and competence.
- Simplifies staff management, including profiles, roles, assignments, and performance tracking.
- Transition from manual paperwork to digital, reducing paperwork and increasing efficiency.
- Facilitates payment confirmation and processing, with structured requests for development-related work.
